

DECIBEL

FESIGN 2022

FELT DESIGN

F

Felt panels made from recyclable, formable polyester fiber and wool

E

Exceptional acoustic properties that will improve speech intelligibility and room reverberation

S

Smart array of shapes and sizes, easily installed in endless patterns to control room acoustics

I

Inspiring design of the panels that meet aesthetic, economic and ecological requirements

G

Gorgeous style with various colors, depth and patterns, making every space a better place

N

New generation of surface materials that both, absorb noise and elevate interior design

FESIGN PANELS & CLOUDS

FELT PANELS are offered in numerous standard shapes and sizes, along with endless customization possibilities. Additionally, the wide range of color options and combination opportunities can create any desirable pattern design. The panels are lightweight and easy to install on any surface with direct adhesion or via hangers.

FELT CLOUDS are a stylish addition to any ceiling, easy to install, and can be customized through the use of wide array of shapes, dimensions and colors. Adjustable to various heights and angles, the clouds can be installed on concrete ceilings, drywall and in suspension with adjustable wire system.

FESIGN DIVIDERS

FELT DIVIDERS are an eco-friendly way to absorb sound, add privacy, color and style in any open plan workspace, enhancing speech intelligibility and turning the space into a pleasant working environment.

The dividers are fully customizable in size, shapes, perforation patterns and colors.

DESK DIVIDERS can be placed on desks in straight or "L" shapes via special legs, also made from felt.

SPACE DIVIDERS can be either placed on the floor with special legs or hanged from the ceiling with adjustable wire system.
